Today in New Jersey, nearly one million adults are providing some form of unpaid caregiving service for an elderly or disabled friend or family member.

This guide has been designed to help caregivers identify their needs and access existing resources within their communities.

On the following pages you will find a listing of the types of services available for both caregivers and the people they care for. Find those that may be helpful to you and call the numbers listed for additional information and assistance.

When in doubt, call NJEASE toll-free at 877-222-3737, or visit our website at www.caregovernj.nj.gov.

These resources provide information and assistance through a wide range of federal, state and local programs for seniors, persons with disabilities and caregivers.

Note: Some programs listed in this guide have eligibility requirements; the agencies you contact will provide you with the details.
