This is the Borough of Lavallette Planning Board Regular meeting of May 23, 2012. Adequate notice of this meeting has been given as required by Chapter 231 Public Law 1975, commonly known as “The Sunshine Law.” The date, time and place of this meeting was posted on the bulletin board located in the Borough Hall, filed with the Borough Clerk, and supplied to the Ocean Star, one of the official Borough newspapers.

PUBLIC MEETING:

Application No. 3-12 – Michael Jordan, 217 Westmont Ave., Block 1113, Lot 46

The property is located on the north side of Westmont Avenue approximately 400 feet west of New Jersey State highway Route No. 35 southbound in the Residential C District and contains 4,250 square feet. The survey provides for an additional 39 square feet of “upland area” for a total lot area of 4,289 square feet. The site currently contains a two-story single family dwelling. The applicant is proposing to reconstruct the second story within the existing first story footprint.

Paul Barlow, Barlow Associates in Brick, NJ was sworn in. He testified he is a licensed architect and professional planner. He stated there is an existing building that sits back in the setback and 12 feet is required and they have 10 feet. The plan is to fill in the dormers on the second floor over the existing first floor and within the footprint. They meet the rear and front setbacks; he testified the plan is not to add additional bedrooms but to make them larger, with some storage space and a bathroom on the second floor. The present height is 22 feet and it is being increased to 24’’ 7.5” and will be below the two adjacent houses and the proposed structure coverage is 30.8%. There will be a pull down stair through the laundry room and they meet the flood requirements. He testified there may be an air handler in the attic and there are two units for heat and air.

Michael Jordan was sworn in and stated he is a permanent resident and he feels this is a modest plan and that the non-conformities are pre-existing. He stated the front yard is used for parking as everyone else does also.

Mrs. Filippone raised some concern about increasing the non-conformity.

Mr. Baginski stated that the setbacks and coverage are all unchanged and the foot print and the structure coverage is less than required as is the height.

Mr. Calderaro agreed.

Mr. Palinsky stated he thinks it was a well thought out plan.

Mrs. Brown agreed that parking is a problem for everyone and cars are parked on the fronts.
A motion was made by Mr. Baginski, seconded by Mr. Calderaro, to approve the application subject to the usual conditions: On roll call: Messrs. Baginski and Calderaro, yes-, Mr. Marino, yes-, Mrs. Filippone, yes-, Mr. Zylinski, yes-, Mrs. Zaccaria, yes-, Mr. Palinsky yes-, Mrs. Brown, yes, Mr. Howard abstain.
