Application #3-14, Anita Zalom, 103 President Ave. - Block 32.01, Lot 8 – Use & Bulk

The subject property is situated on the northerly side of President Ave., approximately 150 ft. west of Route 35 No. (Grand Central Ave.) and is located in the Residential A Zoning District. The lot contains 5,000 sq. ft. of area and is occupied by one 2 story dwelling, one 1½ story dwelling, an above-ground pool, and decking at various elevations.

The applicant is seeking to remove the existing 1½ story dwelling in the rear of the property, damaged during the October 29, 2012 storm and replace it with a new 2 story residential dwelling. The existing dwelling has a footprint of 730 sq. ft. and the proposed dwelling will have a footprint of 690 sq. ft. New steps and deck consisting of 55 sq. ft. will be added for access to the dwelling. Because the proposed dwelling is slightly less in area than the existing and access will replace existing deck and patio area, the net coverage for the site will be reduced by approximately 40 sq. ft.

Gregory Hock, applicant’s attorney, requested an adjournment to the May 22, 2014 Planning Board Meeting, waiving all time lines. A motion to approve the adjournment was made by Mr. Palinsky, seconded by Mr. Calderaro. Roll call vote: Palinsky, yes; Calderaro, yes; Zylinski, yes; Brown, yes; Marino, yes; Howard, yes.

Application #4-14, Robert & Tina Hansen, 110 Brown Ave., Unit 1 – Block 37.01, Lot 15 – Elevate & Rebuild Non-Conforming Use – expansion – continued from March 20, 2014

The applicant is proposing to demolish Unit 1, which was damaged in super storm Sandy and construct a new elevated two story single family dwelling.

The applicant’s attorney, Gregory Hock, introduced the applicant.

Mr. Robert Hansen, 110 Brown Ave., Lavallette, was sworn in and gave testimony that he and his wife purchased the house as a condominium in 2005. He further described the home as having two bedrooms and two baths, and that there was substantial damage to the house after hurricane Sandy. The proposed home will also have 4 bedrooms in 2,000 sq. ft. The home will be raised 4.4 ft. above the base flood elevation, and parking will be under the house.
